Art Unit: 1761

Claims 9-16 are allowed.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chiba et al (GB 1409209) in view of Ashurst for the reasons set forth in rejecting the claims in the last office action.

Chiba et al disclose the claimed compounds (see entire document, especially page 1, lines 47-74).

The claims differ as to the specific use of the claimed compounds as flavoring agents.

Ashurst discloses the well-known use of mercaptans as flavoring agents where the mercaptans have low threshold values (see pages 155-157).

It would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to use the compounds of Chiba et al as flavorants because the use of mercaptans as flavoring agents is conventional in the art as taught by Ashurst.

Once the art has recognized the use of mercaptans as flavorants, the use of any and all mercaptans as flavorants would be no more than obvious to one of skill in the art.

Art Unit: 1761

In the absence of a showing to the contrary, the claimed amounts are seen to be no more than a matter of choice and well-within the skill of the art. At most the claimed amounts are seen to be optimization, see *In re Boesch* 205 USPQ 215.

The declaration under 37 CFR 1.132 filed September 15, 2005 is insufficient to overcome the rejection of claims 17 and 18 based upon 35 U.S.C. 103(a) as set forth in the last Office action for the following reasons.

Claims 17 and 18 are directed to a product containing the compound taught by Chiba et al. The product as claimed contains no other components and is met by Chiba et al. Applicant's arguments are directed to the process claims whereas claims 17 and 18 are product claims and as currently claimed are met by the prior art.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 1761

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
